PROFESSIONAL SUMMARY

I have around 8.5 years of experience (including 2.5 years in Selenium Automation) in development and implementation of web-based applications using Microsoft languages like **C#, ASP.Net MVC, SQL Server, LINQ, Angular6**, scripting languages like: **JavaScript, jQuery**. I offer expertise in automation tool called Selenium Web driver with Java and SQL Server. I have been involved in understanding business flows required by the client and is involved in mentoring activities.

SKILLS

Programming and scripting languages

C#, Basic Java

Frameworks, Tools, and Libraries

ASP.Net, MVC, Angular 6, Entity framework, WCF, Web API, LINQ, Automation Framework, Selenium, Xpath, JQuery

Servers and platforms

Web Applications

Databases

SQL Server 2005, 2008, 2012, 2014

Operating System

Windows XP, Windows 7, Windows 10

WORK EXPERIENCE

Nagarro Software Pvt Ltd

Mar 2013 - till date

NIIT Technologies Pvt Ltd

Oct 2012 - Mar 2013

Visnova Solutions Pvt Ltd

Feb 2011 - April 2012

WORK HISTORY

SAP Integration Hub

01/2019 - Current

Project overview : Project is about enhancing the customers' shopping experience with a seamlessly integrated retail application vend Retail's multi-store, multi-user, eCommerce.

Responsibilities_:

- Development for Integration of SAP B1 with apps for third party enabling apps like Facebook, LinkedIn, Fixer using APIs exposed in XML Spy IDE.

Technology and Tools : XML, XSLT, Azure DevOps Services, Git

Water Management

07/2018 - 12/2018

Project overview : Project is about providing solution for the elements presents in water to check the quality of waters. It prepares charts regarding same for various regions and locations.

Responsibilities :

- End to end development of tasks
- Requirement understanding

Technology and Tools : MVC, C#, SQL Server, Web API, JQuery, JIRA, TFS

TTX Windows 10 Upgrade

01/2018 - 06/2018

Project overview : Project provides up-gradation of all the TTX applications (type of legacy, Asp.net, MVC) developed to Windows 10.

Responsibilities :

- Requirement understanding and design of test plan.
- Developed testing scenarios and test cases.
- Testing of TTX applications on windows 10 and finding bugs Fixing and deploying them to server
- Fixing of bugs encountered on Windows 10
- Bug Fixing and deploying them to server

Technology : MVC, C#, SQL Server, JavaScript, JIRA

EDUCATION

Master of Computer Applications

Maharishi Dyanand University
Rohtak, Haryana, India

MSc Mathematics

Kurukshetra University
Kurukshetra, Haryana, India

Bachelor of Science

Kurukshetra University
Kurukshetra, Haryana, India

ACCOMPLISHMENTS

NINJA Performer

HOBBIES

- Traveling and exploring cultures
- Playing Table Tennis
- Reading Novels

TTX ECI

12/2016 - 05/2018

Project overview : Project provides solution for request created by suppliers and approving them based on the roles and maintaining the cars in system.

Responsibilities :

- Requirement understanding and design of test plan.
- Developed testing scenarios and test cases.
- Migrating one module in Angular 6

Technology and Tools : MVC, C#, SQL Server, JavaScript, Performance Tools, MS Test, JIRA

Infinity QS

01/2015 - 11/2016

Project overview : Project provides solution for Statistical Process Control software and services to manufacturers. It automates data-collection and analysis during the manufacturer process, so makes a real-time process improvement decision and prevent defects before they occur.

Responsibilities :

- Requirement understanding and design of test plan.
- Developed testing scenarios and test cases.
- Handled execution of test cases.
- Tracked and reported the execution and defect status.
- Automated regression test cases using selenium web driver.

Technology and Tools : Selenium Automation Tool, Basic Java, Xpath, TFS

ICIS Energy FTP Bridge (IEFB) 02/2014 - 10/2014

Project overview : The project is about creating a software application capable of fetching the XML files from ICIS FTP server, processing these files and publishing processed files to IDDN. Application will also maintain publishing log.

Responsibilities :

- Developing XSL for XML files
- Developing new CS files for new timeframes

Technology and Tools : MVC, C#, XPath, XML, JIRA

Crisis Management System 04/2013 - 12/2013

Project overview : Using the internet as a platform, CrisisPro takes a systematic process approach to understanding the current situation, forecasting potential developments, making appropriate crisis management decisions, and documenting and monitoring those decisions and actions. It is designed to provide the crisis management team (CMT) with web-based access

Responsibilities :

- Research and development on various new issues
- Understanding architecture components like report generation

Technology and Tools : ASP.Net C#, SQL Server, JIRA

Epic Mobiles

09/2011 - 02/2012

Project overview : This is the project for Sales and Distribution Order and deals with the functioning of a mobile company i.e. from the day the customer purchases, the maintenance of the mobile and returning it to the customer.

Responsibilities :

- Developer
- Developing web forms
- Handling Database part to create tables, joins and functions.

Technology and Tools : ASP.Net C#, SQL Server

A2Z Infra Services

02/2011 - 08/2011

Project overview : Project is to provide maintenance to the entire services of the A2Z system.

Responsibilities :

- Writing methods in WCF Services
- Web Developer
- Developing web forms

Technology and Tools : MVVM, C#, WCF, Silverlight
